

IMPORTANT ART NOTE - Our Manufacturer had a larger imprint size listed than what is actually available on this item. The imprint area was incorrectly listed as 1-5/8" Square, when in fact the imprint is 1-1/4"W x 5/8" H. Less than half of this item gets printed because the other half reserved for the clip that holds the pen/pencil.

Please review the optional layouts we have provided for printing. The graphic of the pig will definitely fill in on option 1, and probably will fill in some on option 2. We've reversed the art in option 3 to try and avoid having the ink run together and fill in as much, but some fine lines and details may fill in.

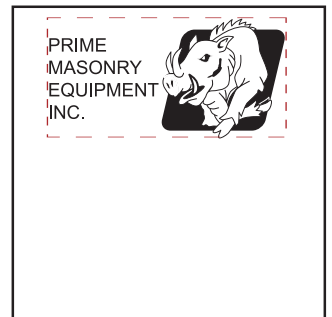

Option 1 - Graphic will fill in significantly

Option 2 - Graphic will experience less fill but may not print suitably

Option 3 - Graphic will experience the least amount of fill.
